

A high-contrast, black and white photograph of a live music performance. A band is on stage, illuminated by bright spotlights, with a large crowd of people in the foreground, their silhouettes visible against the stage lights. The title 'BATTLE OF THE TECH BANDS' is overlaid in a large, distressed, white font with lightning bolt graphics on either side.

BATTLE OF THE TECH BANDS

VIDEOGRAPHER BRIEF · 2026 SEASON

Make them feel like *rock stars.*

Battle of the Tech Bands is a community charity music event where tech-industry bands compete live on stage for **Youngcare**. We're inviting videographers to capture the energy, the noise and the vibe of the night — **and we want your art to lead**. This brief sets out our creative intent, the shots we need, and how we credit and promote your work.

THE EVENT

Thursday **27 August 2026** · The Triffid, Brisbane

PREPARED BY

battleofthetechbands.com

01 What we're about

We put on a genuine rock show. Four to six tech-industry bands, real instruments, a real crowd, and a room that gets loud. Our job with video is to make the people on that stage **feel like rock stars** — and to give the crowd a night they want to relive.

Your creativity leads. We are not after sterile corporate coverage. We want originality, a point of view, and a signature. Get on stage, get into the thick of the crowd, chase the light and the energy.

We're a charity, and honest about it. We keep costs low and are sometimes limited by what sponsorship provides. That's exactly why we offer a menu of options — pitch what fits your kit and your rate.

We back local artists. Supporting up-and-coming photographers and videographers is part of why this event exists. We promote the people who shoot it — see page 8.

We shoot for reuse. Footage promotes future events, so timeliness and technical reliability genuinely matter. Where we're specific, it's from experience — not to box in your craft.

02 See the work we make

Before you quote, spend ten minutes with our back catalogue — full sets, highlight reels and vertical shorts. It's the fastest way to read the tone, pace and energy we're after.

03 What lands best

Not a formula — just the moments our audience reacts to most. Use it as a starting point, then make it yours.

THE MOMENTS

- ◆ The **big musical peaks** — solos, key changes, the crowd singing back
- ◆ The **winner reveal** and the reaction that follows
- ◆ **Crowd energy** — hands up, faces, the pit

THE FEEL

- ◆ **Pace with the music**; let the loud moments breathe
- ◆ Frame **vertical-safe** so reels crop cleanly from horizontal
- ◆ **Real audio up front** — the room, the roar, the band

04 The event

The Triffid, Brisbane · typically draws 400–500 people · running since 2022.

DATE	VENUE	FORMAT	CROWD
Thu 27 Aug 2026	The Triffid Newstead, Brisbane	5 bands 25–30 min sets, ~10 min gaps	400–500 general admission

RUN OF SHOW (indicative — confirmed closer to the date)

2:00–6:00pm	Soundcheck & setup — your window to load in, lock safe camera positions, run cabling, and grab B-roll of the empty room.
6:30pm	Doors open — crowd arrivals, atmosphere, sponsor and charity signage.
Evening	5 band sets , plus MC remarks and sponsor & charity remarks between sets — all to be captured.
~11:00pm	Closing award presentation — the winner reveal is a key moment. Do not miss it.

FIVE BANDS. ONE NIGHT. EVERY SET MATTERS — THE WIDE, THE ANGLES AND THE ROVING CAMERA ALL RUN FOR THE FULL SHOW.

05 Scope & pricing

Please quote each line separately. Listed roughly in order of priority — take on what suits your kit and rate.

#	SERVICE	YOUR QUOTE
1	Footage only REQUIRED Multi-camera raw capture of the full show — wide, two angled cameras, one roving. Full technical spec on page 6.	----- AUD
2	Reels & highlights ADD-ON One event highlight reel, one winning-band reel, plus a reel for each remaining band. Cut for social — horizontal source, vertical-safe framing.	----- AUD
3	Additional videographer IF AVAILABLE Extra on-stage shots, B-roll, and backstage / crowd interviews. Adds coverage and a second perspective.	----- AUD
4	Graded footage IF AVAILABLE Footage colour-graded, delivered as a DaVinci Resolve project — our preferred editing tool (see note below).	----- AUD
5	Full edited show IF AVAILABLE The complete show edited from multicam, including grading — delivered as a DaVinci Resolve project plus a final rendered master (see note below).	----- AUD

EDITING TOOLS — DAVINCI RESOLVE PREFERRED

We edit and archive in **DaVinci Resolve**, so a **Resolve project** is our preferred hand-off for graded and edited work (lines 4–5). Prefer another editor? That's completely fine — cut in Premiere, Final Cut or similar and deliver a standard interchange (**FCPXML / Premiere XML / AAF / EDL**) that relinks into Resolve, alongside the graded media and final master.

06 Equipment

WE CAN HIRE IN — TELL US WHAT LIFTS THE RESULT

If additional gear would meaningfully improve coverage, **recommend it and we'll look at hiring it in**. Note that hire costs factor into our final decision on pricing, so please flag what's essential versus nice-to-have.

Feel free to quote with and without recommended hire so we can compare options.

07 Footage — the shots

Everything filmed horizontally, with framing mindful of vertical reuse. Extra angles are always a bonus.

1 · WIDE — FULL STAGE

- ◆ Ideally **6K** to maximise post digital zoom
- ◆ Locked and stable; covers the whole stage for the full show

2 · TWO ANGLED CAMERAS

- ◆ Shooting **towards the stage**, typically from the left and right
- ◆ Tighter performer coverage to intercut with the wide

3 · ONE ROVING CAMERA

- ◆ On and off stage — **B-roll, crowd, backstage** where appropriate
- ◆ Where the energy and vibe get captured

+ BONUS ANGLES

- ◆ Any additional angles you can provide are welcome
- ◆ Surprise us — originality is the point

08 Delivery & capture spec

FORMATS & MEDIA

- ◆ Raw footage **minimum 4K**, in **Log** or **Blackmagic RAW**
- ◆ **24 fps** base rate — set shutter to avoid flicker under stage lighting (25 fps is fine if you prefer); higher rates welcome for slow-mo B-roll
- ◆ Delivered on an **SSD we provide**
- ◆ Where a format lacks camera metadata, include **camera make & model**

AUDIO (FOR REDUNDANCY)

- ◆ **All video must include audio** for syncing
- ◆ We usually have soundboard recordings, but good-level camera audio has saved us more than once — please set sensible levels

RELIABILITY & CONSISTENCY ON THE NIGHT

- ◆ Record to **dual cards / backup** where your camera supports it
- ◆ Keep **white balance & picture profile matched** across cameras for cleaner multicam grading
- ◆ Mind **camera vibration** in your setup and mounting
- ◆ Check cameras **between sets** for overheating / shut-off
- ◆ Confirm cards are recording and levels are healthy after each changeover
- ◆ Have a **redundancy plan** for the winner reveal and key moments

09 Deliverables & timelines

Value declines the further we get from the event — so timeliness genuinely matters. Timelines are negotiable up-front; earlier delivery is always appreciated.

- **Fri 28 Aug 2026 · 5:00pm**
Raw footage — all cameras
Minimum 4K Log / BRAV on the supplied SSD, with audio. Due 5pm the day after the gig.
- **Sun 30 Aug 2026 · 5:00pm**
Event highlight reel ×1
The hero cut we push out first, while the buzz is fresh.
- **Tue 1 Sep 2026 · 5:00pm**
Winning-band highlight reel ×1
Winner announced on the night — this reel follows quickly after.
- **Fri 11 Sep 2026 · 5:00pm**
Remaining band reels ×4
The four other bands, by the Friday two weeks after the gig. Deliver individually as they're ready.

10 Ownership & usage

WE OWN THE WORK — YOU'RE FREE TO SHOW IT

You're paid to create it, so **BOTTB owns** the footage and edits — and we keep that fair:

- ◆ **Use your own work, always** — feature anything you shoot for us in your portfolio, showreel and self-promotion, crediting BOTTB.
- ◆ **Published under CC BY-NC 4.0** — like all media on our site, we release it for non-commercial use with attribution to you, so it gets seen and shared.
- ◆ **Commercial use stays with us** — and if a paid or commercial opportunity for the work comes up, we'll come to you first.

11 If a deadline slips

OUR PROPOSED STANDARD — FIRM, FAIR, AND NEGOTIABLE

We tie any reduction to the **specific late deliverable**, and reward early communication:

- ◆ **24-hour grace** — a deliverable up to a day late, with a heads-up beforehand, carries no reduction.
- ◆ **Then 10% per day** off the fee for that deliverable, capped at 50% of its value.
- ◆ **Beyond 7 days late**, a time-sensitive reel may no longer be useful and we may decline it — because its promotional value has passed, not as a penalty.

Talk to us early — communication keeps us flexible.

12 What you get from us

Supporting local artists is part of the point. Beyond your fee, we actively promote the people who shoot the event.

PROMOTION

- ◆ A profile on our **videographers page**, alongside our photographers
- ◆ Your work seen across our event and band pages

CREDIT & COLLABORATION

- ◆ Added as a **collaborator** on Instagram posts
- ◆ **@mentioned on LinkedIn** for video posts

13 How to quote

Send us a short reply covering the following. No formal proposal needed — a clear email is perfect.

- ◆ A **price per service line** (1–5, page 5)
- ◆ Any **recommended gear hire** (essential vs nice-to-have)
- ◆ A **showreel or portfolio** — ideally your live-music work
- ◆ Which timelines you can **commit to**
- ◆ Your **kit** — cameras, resolution, formats
- ◆ Whether you'd bring an **additional videographer**
