

BATTLE OF THE TECH BANDS

PHOTOGRAPHER BRIEF · 2026 SEASON

Make them feel like *rock stars.*

Battle of the Tech Bands is a community charity music event where tech-industry bands compete live on stage for **Youngcare**. We're inviting photographers to capture the energy, the faces and the vibe of the night — **and we want your eye to lead**. This brief sets out our creative intent, the shots we love, and how we credit and promote your work.

THE EVENT

Thursday **27 August 2026** · The Triffid, Brisbane

01 What we're about

We put on a genuine rock show. Four to six tech-industry bands, real instruments, a real crowd, and a room that gets loud. Our job with photography is to make the people on that stage **feel like rock stars** — and to give the crowd a night they want to relive.

Your eye leads. We are not after sterile corporate coverage. We want originality, a point of view, and a signature. Get on stage, get into the thick of the crowd, chase the light and the faces.

We're a charity, and honest about it. We keep costs low and are sometimes limited by what sponsorship provides — so we're upfront about budget and keep the ask simple.

We back local artists. Beyond your fee, we feature the people who shoot it — a profile on our **photographers page** and credit wherever your work runs. Backing up-and-coming photographers is part of why this event exists.

We shoot for reuse. Photos promote future events and go straight to the bands, so timeliness and a consistent, gig-ready edit genuinely matter.

02 The shots we're after

A few of our favourites from past events — the moments and the vibe we're chasing. Not a shot list; a starting point. Then make it yours.

05 Equipment

WE CAN HIRE IN — TELL US WHAT LIFTS THE RESULT

The Triffid is a dark room with dramatic stage lighting, so fast glass and good low-light bodies earn their keep. If a piece of gear would meaningfully improve the coverage, **recommend it and we'll look at hiring it in** — just flag what's essential versus nice-to-have, since it factors into pricing.

09 Ownership & usage

WE OWN THE WORK — YOU'RE FREE TO SHOW IT

- ◆ **Use your own work, always** — feature anything you shoot for us in your portfolio, crediting BOTTB.
- ◆ **Published under CC BY-NC 4.0** — like all photos on our site, released for non-commercial use with attribution to you.
- ◆ **Commercial use stays with us** — and if a paid opportunity for the work comes up, we'll come to you first.
