Recorder fold-down: * ShipRex set only: track 4 swaps Snare Bottom → Guitar 2 (14) — ShipRex use 21 inputs, one over the recorder, and Snare Bottom is the sacrifice. Every other band has ALL of their inputs captured. Playback / backing tracks (26–27) go to the recorder's RCA line input. Crowd/ambience is not multitracked — house-mix Zoom + camera audio. MC/host uses a band vocal mic between sets — announcements land on the recorded vox tracks.

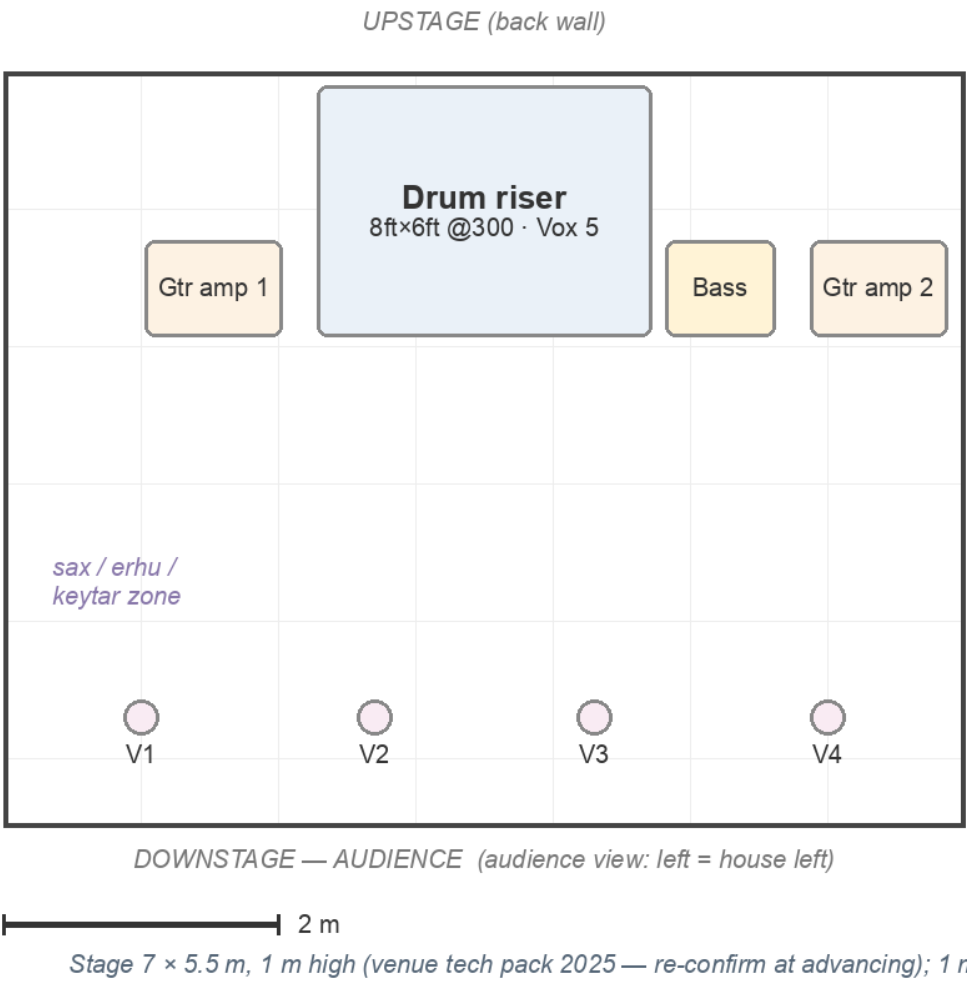

Running Order & Contacts

Soundchecks run in reverse playing order; ~10-minute changeovers between sets. Total Loss set time follows the changeover pattern (their sheet said 9:30).

Stage Layout — The Triffid (to scale)

Fixed for all bands: backline stays put, players plug in and play. To scale from the venue's 2025 tech pack (7 × 5.5 m stage, 1 m high, Mojo barrier in front). Second 8ft×5ft riser available for a rolling drum swap.

Vocal mics V1–V4 numbered left → right as the audience sees the stage; V5 on the riser. All amps line up with the front of the drum riser: bass hard against its right side, guitar amps outside. Keys placed per band on the day; sax/erhu zone stage-left. Wing space is tight (2 m² USL, 2×3 m USR) — bands' own backline stores per the changeover plan, not in the wings.

Set list (audio cues)

#	Song	Len	Audio-relevant notes
1	Bring Me To Life (Evanescence)	4:00	At the start, we will play half a minute-ish of chanting monks as we come on stage, dressed as monks. We will fade out the sound at then start the piano intro to the actual song.
2	Beer (Reel Big Fish)	3:30	At the start: Billie leaves, Rakka joins Tim. We all remove our monk outfits.
3	Never Had So Much Fun (Frenzal Rhomb) - Inclusion depends on our final rehearsal	2:00	At the start: Tim leaves, Rakka remains.
4	Chelsea Dagger (The Fratellis)	4:30	At the start: Tim rejoins Rakka. Billie joins again for backing. She will need to share a mic with Paul or Graham. In the middle: We will do some audience participation.
5	Say It Ain't So (Weezer)	4:30	At the start: Rakka leaves. Tim remains. Billie joins again for backing.
6	Take The Power Back (Rage Against the Machine)	6:30	At the start: Billie leaves, Tim remains Tim will do an extended chatty intro, gradually turning into the song proper.

Also: We will also have a projector video that (extremely) vaguely syncs with our performance. It's just a hit play once thing, and leave it for 25 minutes. It's mostly slow moving photos and clips of our past gigs.

6	Paint it Black (The Rolling Stones)	3m 30s	Alistair joins in on guitar Wesley joins on Sax ...(stage/lighting cues in lighting pack)

Also: Bass player wants to be as close to the drummer as possible as it is his 16 year old son playing drums.

Lead guitarist wants to be close to the bass player as they work closely together and want line of sight.

So preferably line up left to right is

Alistair far left

Richard centre left attack

Wesley Sax player - front and center

Steve (bass player) close to drums

Peter guitarist far right

Advance Queries — chase before show day

Band	Open item
Off The Record	No direct contact on sheet — using Dean Povey (Epsonics) as go-between
Epsonics	Estimated set total ≈ 27:45 vs a 25-minute slot — trim ~3 min at rehearsal or it eats the changeover.
Epsonics	Vocal map says Callum also backs on No One Knows (song 2), but the matrix has Vox 1 in song 7 only — matrix used; confirm.
Epsonics	Backing video: 1080p 16:9, HDMI direct to the 200-inch screen — sheet says playback runs from a laptop at the desk with the video.
The ShipRex	Erhu on ch 24 — confirm miking (clip-on / wireless bodypack) and who supplies it: the house mic stock has no clip-on instrument mics.
Jumbo Band	Monks-chant intro is now on playback ch 26–27 — confirm who supplies the playback device and audio file.
Jumbo Band	Projector video: author 1080p 16:9, HDMI direct from FOH/LX — who runs the laptop for the 25-min loop?
Jumbo Band	Sheet says 5 songs but set list has 6 — confirm.
Total Loss	Guitar 3 (right): It's large and loud (TBC) — confirm size/placement
Total Loss	Alistair's vocal effects pedal — confirm routing (Vox 2 mic through pedal, or pedal to a DI?).

Organiser corrections applied on top of the band sheets (23 Aug): Off The Record song 1 — Becca and Fay alternate verses; song 3 opens with a piano solo. Jumbo Band monks-chant intro assigned to playback (ch 26–27). Epsonics: Vox 4 (Romney) backing on Uptown Funk (4) and The Chain (7); Guitar 1 (Callum) plays all 7 songs; song-2 segue/click cue added. ShipRex: Sabrina Carpenter spelling fixed. Total Loss stage/focus cues appear in the lighting pack only. Everything else is as the bands submitted it (Epsonics parsed from their 7-column matrix, including the keytar note).
